BLACK HIGH SPEED AUTOMATIC HAND DRYER - 1450W

- This hand dryer is designed to provide fast, sanitary hand drying for your employees and customers. It's specifically built for use in high-traffic restrooms, giving you the peace of mind that it can withstand the abuse of constant operation. To help you save on energy costs, the machine even provides up to 85% savings when compared to conventional hand dryers, putting more money in your pocket while replacing slower, older dryers. Plus, this particular model boasts HEPA filtration for ultimate sanitation and convenience.
- Sanitation is imperative for good health and a productive workplace. This hand dryer uses a built-in HEPA filter that captures 99.9% of airborne contaminants and bacteria to ensure that clean hands stay clean through the drying process.
- This hand dryer quickly dries hands with its powerful, 1450W motor. Since it provides air speeds of 70m/s, it allows a quick but comfortable drying time of 10-15 seconds. It also operates quietly at just 68.5dB for customer comfort. Plus, it provides 85% energy savings over traditional hand dryers!

-
- To help ensure sanitary drying, this model activates automatically using an infrared sensor. It also has an LED indicator that provides precise information about the optimal drying zone so that staff members and guests can dry their hands as efficiently as possible. Plus, to help save energy, this model turns off automatically after 45 seconds.
This product must be hardwired; it does not plug into a standard wall outlet.
